**Subject:** RE: Pretreatment - Contractor Task Swaps  
**Attachments:** California Statewide PT Work History.xlsx

Hello Amelia:

Based on the attached and EPA's reluctance to change the TT contract to allow for training, I have identified 4 PCAs and 2 PCIs, shown in the "notes" column on the attached in red, to replace the R7 tasks (PCIs and reviews @ Banning, Coachella SD, El Centro, City of Imperial, and Valley SD) that R7 wanted to drop.

What do you think?

Thank you,

W. Russell Norman, P.E.

**Subject:** Pretreatment - Contractor Task Swaps

Hi Russell and Phil,

I met with Chuck Durham and Christine Wong of Tetra Tech last week (who I understand had met with you the previous day), and they told me about the 5 PCIs (Banning, Coachella SD, El Centro, City of Imperial, and Valley SD) and 3 program/submittal reviews (Banning, Coachella, and City of Imperial) for RB7 that they were scheduled to complete this fiscal year, but which RB7 says do not actually need to be completed this year.

Russell, if you have a list of which programs' NPDES permits will be up for renewal in the next year or so, that might be a good place to start looking for potential PCIs/PCAs/program reviews to replace the above tasks with. If you don't have this information, perhaps you could ask the Regional Boards if they have any PCIs, PCAs, or pretreatment program/document reviews they would like conducted (Tetra Tech has been assigned to do work in RBs 1, 3, 4, 6, 7, 8, and 9 under this task order, so those would be the best places to start asking).

Please give me a call if you'd like to discuss. It'd be great to swap out these tasks ASAP so that the contractor can get to work on them before the contract expires at the end of the fiscal year.

Thanks so much,  
Amelia
